To Whom it May Concern:

It has been my privilege to work with Kami Spatzek for the last four years in LaGrange School District 102. Kami has been an exceptional colleague--always willing to share lessons, resources and ideas with her fellow teachers as well as her LRC colleagues. I have really appreciated her input regarding how to implement ideas and technology within my classes involving various subjects at my kindergarten through sixth grade school. Beyond simply coming up with creative ideas, Kami's is also inquisitive about new technology, best practices in education, and ways to excite students about books and reading. She truly impresses me with her technology skills. Check out her website!

Kami's positive attitude and helpful disposition have been a wonderful asset to many people in District 102. She wears many hats and always with a smile on her face and a helping hand to offer to students and teachers alike. We all value her experience, contributions and fresh ideas. The teachers on your staff would likewise greatly appreciate her presence on their team, not only because of her creativity and technology skills, but even more because of how able and willing she is to assist them in collaborative lessons that keep students engaged, teachers focused on Common Core, and integrating technology into learning. Kami also has a love of reading. She will guide students to literature that is appropriate for their personal reading as well as enhance curriculum with suggestions on what could compliment the current class topics. She and I worked to write the research process for the different levels in our district, so Kami is very astute as to how to navigate the overwhelming flood of information students face on a daily basis.

If you have any questions regarding Kami's contributions to our team of colleagues or how she has benefited me personally as a teammate, please don't hesitate to contact me. I can be reached at 630-461-1111 or [jpitelka@att.net](mailto:jpitelka@att.net)

Sincerely,
